VAF Filtration: V-Series Self Cleaning Screen Filters

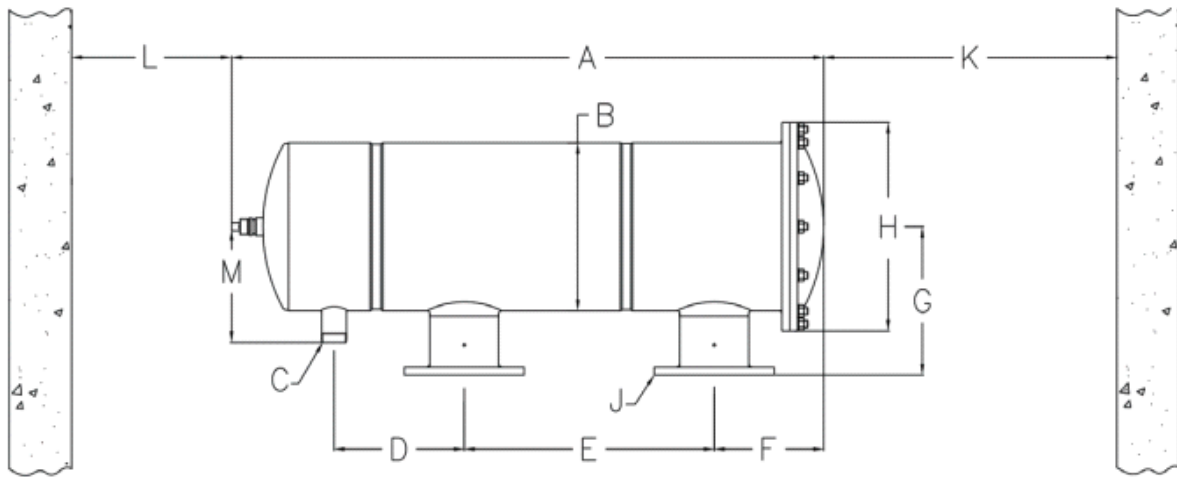

- 25 micron (additional screen sizes available)
- 0.5 psi pressure drop
- 316L stainless steel construction

In today's ever-evolving, data-driven world, AI is pushing the limits of data center cooling. The resulting thermal challenges require next-generation cooling technologies that:

- Reduce maintenance and contamination from service
- Improve pump seal life
- Ensure system reliability

V-SERIES™ DIMENSIONS
